

## Hearts for Home Care

A BAYADA program supporting quality home health care.

# Join Hearts for Home Care

Every day, you give the best possible care to your loved one. You give them more than your time—you are led by your heart in all you do. The Hearts for Home Care program offers another way you can help give the most important people in your life the best care—by giving them a voice in the government decisions that affect them.

### Share your experiences

In its simplest form, advocacy is talking with our representatives in government about the issues we care about. As a member of the Hearts for Home Care program, you can help your elected officials and other policymakers better understand how things like Medicaid reimbursement rates that are too low affect you and your loved one. By sharing a glimpse into your daily life, you can help educate legislators and regulators who make decisions that affect home care clients and employees.

### What does being a Heart for Home Care mean?

As a Heart for Home Care, you will receive email alerts when government officials need to hear from their constituents about issues affecting home care. Don't worry if you're not sure what to say. You'll be provided with prewritten emails to send to your legislators. You'll also receive notices when Legislative Action Days are scheduled to bring together clients, families, and employees in their state capitols to speak with legislators about home care.

### Become a Heart for Home Care

Hearts for Home Care has an easy-to-use website ([heartsforhomecare.com](http://heartsforhomecare.com)) where you can sign up to stay informed and take action. Through the website you can:

- Learn more about the important issues affecting home care clients and employees
- Explore how to be an advocate in various ways—by phone, in meetings with legislators, on social media, and more
- Send an email to your elected officials
- Find out about scheduled Legislative Action Days

### Ready to get started?

How much you participate is up to you! Sign up now or learn more by contacting us:
